From our own Correspondent

We were all in evidence of the cold weather last Thursday night and part of the next day owing to the gas pipe freezing up. Some had coal stoves and others had none. We were all glad when we turned the key and once more the gas began to hiss.

Church goes from a distance have difficulty in making the grade on account of so much snow.

Mr. B. Pollitt has made a sale of one of his ponies, W. Green, being the buyer.

Lots of stock feed in evidence. Numerous wagon loads going out of town to the farming districts.

An unusual occurrence of two brothers receiving the Mone Medal each, happened lately, such was the case of the Hornecastle Brothers, of Yorkton, Saskatchewan, who enlisted with the 1st C.M.R.s.

The Municipal Government is contemplating building new public quarters here this year.

Mr. A. Millar, returned last Saturday from Calgary, where he had been attending the U. F. A. Convention

# Canada Free To Voice Views On The League

Montreal, — Hon. N. W. Rowell, president of the privy council, speaking before the McGill University club, gave an emphatic reply to the objections to certain United States senators to representation of Canada and other British dominions on the League of Nations. He pointed out that Canada had won a position as practically an independent nation although still part of the commonwealth of nations that made up the British Empire. Hence, Canada was as free as any other nation to voice its views at the council of the League of Nations, and would even disagree with Great Britain if such a course seemed wise to her.

Mr. Rowell concluded his address by saying: "No nation will finally put itself on record as denying to Canada the right to voice its views on the preservation of the peace which her soldiers did so much to win while such nation claim a vote for the nations of much less intrinsic importance which may have done little or nothing in the war."

"Canada has won her right to a place in the assembly of nations by the blood of her sons, and this right, thus won, the Canadian people will never surrender."

## Charge of Melting Down British Coins

Men Were Arrested Under Provisions of Defence of the Realm Act

London.—Testimony was taken in the case of six persons in connection with Harry Leslie, a barman, who Chamberlain, diamond merchant, who are charged with having broken up and melted gold coins. They were arrested under a provision of the Defence of the Realm Act.

The testimony tended to show that not less than 110,000 gold and silver coins were withdrawn from the Bank of England in the course of a year by the accused. The total weight of the metal was 1,000,000 lbs.

The lawyers, on behalf of the Crown, asserted that the defendants had organized a remarkable system for securing coins, which were melted down and the gold sold.

During December alone, it was charged, they disposed of 1,000,000 worth of £2,000 sterling, while in the course of the month they succeeded in getting 25,000 overweights from the bank.

## Lady Astor May Second Address

London.—Suggestions have been made that Lady Astor, the only woman member of the House of Commons, be called upon to move or second the address replying to the King's speech from the throne, in connection with the re-opening of parliament on February 10. The Mirror speculates whether Lady Astor, who is chosen for either place, will wear full court dress in accordance with the tradition which prescribes that the member making the motion should be wearing it shall wear a uniform or court costume.

# Holland Prepares Reply to Demand Of the Allies

The Hague. — The reply of the Dutch government to the demand of the allied powers that the former German emperor be given up to them for trial is being drafted and will be forwarded shortly to the Dutch minister at Paris for communication to the allies.

Although Holland is determined to stick closely to diplomatic precedent and not publish nor intimate the text of the reply until it is delivered, there is currently no cause for present time to make any change in the predictions of the Dutch newspaper that the Dutch government will decline to accede to the demand.

The Associated Press was informed by a high official that the former German emperor had been in no way considered about the reply, nor had he been officially informed of the demand for his extradition.

"The Dutch government will probably answer that it is her international duty to refuse extradition." It will

## Advance Guard of German Diplomats

Secretaries and Attaches Take Up Residence in Paris

Paris.—The advance guard of the German diplomatic mission to Paris has arrived here. It comprises secretaries and attaches, who took up their residence in the former German embassy, Wilhelm Meyer, who is to be the German chargé d'affaires, is due to reach Paris soon. Baron von Treutler, minister plenipotentiary, is expected to arrive in the near future, and an expert on reparations questions, accompanied the mission.

## Ross Rifle Factory Settlement Will Receive Two Million Dollars From the Government

Ottawa.—The government, acting on the advice of its council, Messrs. Tully and Meredith, Toronto, has finally settled for two million dollars the claim of Sir Charles Ross for compensation for the expropriation of his rifle factory and plant at Quebec under the War Measures Act in March of 1917.

The case was pending in the Exchequer court and was to have come up for hearing this coming spring, the court's award being limited to a maximum of three million dollars according to the terms of the order-in-council granting the fact.

Sir Charles Ross, though advised by his own counsel that the full amount allowed by the limitations of the order-in-council could be secured from the court, agreed to accept the two million dollars offered by the government in view of a quick and final settlement. The cheque was paid to him.

It is understood that the government's own experts, who valued the physical assets expropriated, reported an amount in substantial excess of the two millions which Sir Charles has now agreed to accept.

## Italy Under Martial Law

General Railway Strike Has Tied Up the Country

Paris.—Northern and Central Italy are in the grip of a general railway strike, but Southern Italy is not so seriously affected, according to the Turin correspondent, the Yetteli telegrams. The Italian government was unable to run a few trains over the principal lines, the trains being heavily guarded by troops armed with machine guns.

Martial law is enforced in the principal cities of the country, the streets of which are patrolled by cavalry and are under the guns of artillery units. It is said. Stores, theatres, and places of amusement are ordered to close at eight o'clock in the evening, and everyone is forbidden to use automobiles or bicycles. Police searches of automobiles are ordered, the suggestion of all automobiles confiscated to prevent the strikers using the machines.

## German Horse Market

Berlin.—Historic Koenigsplatz was converted into a horse market. This market will be conducted by the city of Berlin pursuant to the provisions of the Versailles treaty, which calls for delivery of horses to France and Belgium. Owners of horses in this city were threatened with heavy money fines if they failed to make an appearance, and the result was a gathering of horses of all breeds. As the general average was below the required standard, most of the animals were returned to their owners. A better class of steeds is being sold back in the rural and farming districts.

Seller's Pay in England

London.—Dissatisfaction is being shown by Canadian soldiers still being held that their payments are being made in English currency with a consequent loss of exchange. This they allege is contrary to enlistment conditions. At a meeting, they appointed a committee of nine to request that Canadian currency be used in future, and to recover back balances. If necessary, they will enforce their rights by constitutional procedure.

Every man should know something about law, and if he knows enough to keep out of it he is a pretty good lawyer.

## Prince Reaffirms Intention Of Re-visiting Canada

Says He Is Still Receiving Large Mail, But Not All From Fair Sex

London.—The Prince of Wales was the guest at a large and enthusiastic dinner of the Pilgrims. More than three hundred persons were present. The Prince made a speech, partly humorous, partly humorous. With some modesty he expressed himself touched here and there and had a clamorous reception. The Prince reaffirmed his intention to revisit Canada, particularly the middle and far west, saying that the best proof that one had enjoyed a visit was his earnest desire to repeat it. He remarked:

"I am still receiving a large amount of mail from the United States—and not a few of it from the fair sex," which provoked great merriment.

Another spontaneous touch was another cheered. Referring to the chairman's remark that the Prince, after his tour, was again domiciled as a citizen of England, His Royal Highness said:

"I hope I am domiciled as a citizen of the British Empire."

Wearing the broad ribbon of the Garter and his war medals, the Prince shook hands with all the guests as they arrived.

"My big hand is in a pretty bad condition from handiwork. I hope the Pilgrims won't mind if I use my left," he remarked to the chairman, Lord Dunsborough, exhibiting his right hand, which was red and swollen. It was noted, however, that the Prince had given his right hand, white to the rank and file he gave his left.

## Expect Immigration Of Carpet Weavers

Are Attracted to Canada By Higher Wages and Lower Cost of Living

London.—Word on board the Scandinavian, leaving Liverpool, included carpet weavers from Halifax and Kildersmore, said to be attracted to Canada by higher wages.

Representatives of Canadian manufacturers state that in addition to raising higher wages, the prospect for weavers were brighter in Canada, because food was cheaper than in England.

There also appears a letter for Bishop Perrin, of Willeford, and formerly of British Columbia, who writes on behalf of the Episcopal Church Society, appealing for help for clergy who wish to settle in the British dominions.

An ecclesiastical appointment, said the bishop, though it may not seem much increased pay, frequently provides better openings for children. It is hard that clergy should have such a chance for lack of a comparatively small sum.

## Seminoff Assuming Rulership Has Taken Control of Siberia

Harbin, Siberia.—Seminoff, commander-in-chief of the Al-Bussan army, has issued a proclamation declaring that he has assumed the supreme rulership of Siberia. According to Gen. Seminoff's representative here, his assumption of supreme power is only temporary and is due to the fact that the whereabouts of Admiral Kolchak is unknown.

## No Sugar Shortage in Russia

Washington.—Four hundred million pounds of sugar, 200,000,000 bushels of wheat and large quantities of other and other materials, stored in the Ukraine, will be made available for the markets of the world when the general blockade of Russia is lifted, according to an announcement by the Ukrainian Mission in America. "Ukraine needs medicines, surgical instruments, clothing and agricultural machinery," according to the mission, which lack the lack of medicines and clothing is the greatest of the Ukraine. It was added that the receipt of needed supplies would greatly assist the Ukrainians in fighting the Bolsheviks.

## Not Obligated to Surrender

Berlin.—In response to an inquiry as to whether he advised these Germans to do whose names are on the extradition list of the entente, Gen. Ludendorff, the senior first quartermaster, generally said:

"Nobody is obliged to surrender himself voluntarily. It is no breach of honor to place one's self outside the pale of arms."

Ship \$1,500,000 Gold Into India

New York.—Withdrawal of \$1,500,000 gold from the sub-treasury for shipment to India excited considerable interest. The gold was to be sent by bankers. The shippers are understood to represent a British bank with connections in India, Australia and China.

## Asquith Once Again Is A Candidate

Former Premier Will Probably Be Faced With Exciting Struggle

London. — Ex-Premier Asquith seeks to return to parliament through the by-election in the Paisley constituency, arising out of the death of Sir J. McCallum. The local Liberal adopted Mr. Asquith as their candidate. Already a Labor candidate, J. M. Biggar, is in the field, and as the Coalitionists had previously decided to contest the seat if Mr. Asquith were selected, there is likely to be a straight fight between the Liberal and Labor candidates unless, as is considered improbable, the Unionists run a man.

In view of the recent Sen. Valler (West Indian) working for the Unionists, when the Laborite, Tom Meyer, won over the Liberal candidate, Sir John Simon, former Home Secretary, and further because at a general election Mr. Biggar was very few votes behind McCallum, the struggle should prove an exciting one.

## Husband's Love Worth Million Dollars

Woman Sues Another for Alienating Husband's Affection

New York.—Charged with alienating the affections of the late Theodore P. Shonts, president of the Interborough Rapid Transit company, Mrs. Anna C. Thomas, residuary legatee of his estate, was made the defendant in a \$1,000,000 damage suit brought by Mrs. Milla Shonts, widow of the railway president, whom she married in 1881.

In 1908, Mrs. Shonts alleges, Mr. Shonts became acquainted with her husband and thereafter succeeded in gaining his affection by her flattery and wiles until Theodore P. Shonts from the society of the plaintiff.

## British Interests in Mexico

U.S. Oil Men Have Difficulties Through Not Complying With the Law

Mexico City.—Rumors reaching Mexico City that the Mexican government was favoring British oil companies over the American ones, have been denied by the oil company, chief of the oil bureau of the department of industry, commerce and labor. He asserted American oil companies were encountering difficulties because "they have not shown a disposition to comply with the regulations of the Mexican government." In 1918, and also constitutional provisions regarding the necessity of submitting to Mexican law.

On the other hand, British companies are declared by Señor Sanchetti to be encountering no difficulties.

Several British companies, the bureau chief said, are pushing their work vigorously "because they have completed their drilling and are now engaged in erecting clothing and agricultural machinery" relating to incorporation under Mexican laws, and have followed the regulations governing oil had holdings.

## Further Outrages Are Reported From Ireland

Dublin.—Assistant Commissioner of Police Redmond was shot and killed in Harcourt street, one of Dublin's main thoroughfares.

Writs executed, Mr. Redmond endeavored to draw his own pistol, but was unable to do so before he was shot down. He was found gripping the pistol, which was in his pocket.

Mr. Redmond recently was brought to Dublin from Belfast, where he had been a successful constabulary officer, to assist in co-ordinating the Dublin police, and to ensure increased efficiency in the detective service in view of the murder of several policemen, for which no arrests have been made.

Thurles.—Another constable was shot and badly wounded while returning to his home here. Armed vagabonds later searched the district and entered several homes, looking for the assassins of the constable, and also held up and questioned pedestrians. No arrests were made.

Several crates of glass during the evening were followed by volleys from the rifle of the police.

The shooting occurred within a few yards of the hotel where Mr. Redmond was stopping. This hotel is almost opposite the recently closed Sun Fire headquarters. The deed he will die.

# Anti-Bolshevik Forces Are Now In Better Position

## General Strike in Canada Proposed

Vote Taken Favors Action as Protest Against Conviction of Russell

Windsor.—A vote favoring a general strike throughout the length and breadth of Canada as a protest against the trial and conviction of R. B. Russell, strike leader, was adopted at last Sunday's closed meeting of local labor bodies, under the auspices of the Labor Defence League. H. Kemper, business agent, announced. It was decided, however, to bring the matter to the attention of British Labor leaders. Another meeting to discuss this matter will be held.

## Hun War on "Reds"

Berlin.—In addition to arresting communists and independent socialist leaders, the government is sending out private investigators throughout the country. Fifteen journals have been placed under an indefinite ban.

Meanwhile, the River Don is so near an asphyxiant sea to render it difficult of passage, and the Don and Caucasus armies have thus gained a valuable respite, which will be used in re-forming and raising further reinforcements that should shortly be available to replace the casualties of the retreat. Moreover, the imminent danger to their country has caused both the Don and Kuban Cossacks to rally wholeheartedly to support the Denikin.

The Bolshevik advance in Siberia appears to have slowed down. The advance in this position is revealed a communication from Admiral Kolchak at Nijni-Udinsk stating that he is running the gauntlet of the minimum of land units, whose fate he intends to share.

## Offers of Aid for Austria

Received Daily By Government From Points in Every Province

Ottawa.—Offers of assistance for the starving populations of Austria are being received daily by the government. They come from points in every province. At a number of cities comforts are being collected. The government while welcoming all private assistance, is awaiting further communication from the imperial authorities before announcing its policy. The British government has suggested shipment by the Dominion of a cargo of wheat or flour, with the intention in the establishment of credit.

## Huns to Answer for Crimes

Final List Is Supposed to Contain Somewhat Less Than 500 Names

Paris.—The final list of Germans whose extradition will be asked by the allies, as approved by the supreme council, is supposed to contain some what less than 500 names. The list originally 1,400 accused by the different allies.

It is understood the list has not yet been delivered to the Germans, and the delay in handing it over is taken in some quarters to indicate that the list, which is still in process, the Germans are insisting strongly upon trial of the accused in their courts.

## To Support Home Markets

Canadian Reconstruction Association is appealing to urban municipalities throughout Canada to support the home market by purchasing Canadian goods.

By means of a special letter from the president, which is being sent to clerks of cities, towns and villages.

London.—The position of Gen. Denikin, anti-Bolshevik leader in Southern Russia, is all appearance is somewhat better, according to the War Office summary of the situation. The inevitable pause has occurred, which must follow any long and rapid advance such as has been conducted by the Bolshevik in south Russia. The further course of operations will probably favor the able to make the best use of the time at its disposal for reorganization.

This naturally will be easier for Gen. Denikin, who is nearer his base and resources than the Bolshevik, who have gone deep into enemy country and depend for supplies and equipment on partially deserted railways.

Much depends upon the support offered Denikin by the population at his rear. Latest reports seem to indicate that he still commands their full confidence and loyalty. However, the basis of material in the recent retreat are bound to have a great effect on future operations.

Meanwhile, the River Don is so near an asphyxiant sea to render it difficult of passage, and the Don and Caucasus armies have thus gained a valuable respite, which will be used in re-forming and raising further reinforcements that should shortly be available to replace the casualties of the retreat. Moreover, the imminent danger to their country has caused both the Don and Kuban Cossacks to rally wholeheartedly to support the Denikin.

The Bolshevik advance in Siberia appears to have slowed down. The advance in this position is revealed a communication from Admiral Kolchak at Nijni-Udinsk stating that he is running the gauntlet of the minimum of land units, whose fate he intends to share.

## Oppose Bone-Dry Ontario

Toronto.—Dr. Andrew S. Grant, secretary of the Ontario referendum committee, is quoted in an interview as saying:

"Ontario is not bone dry. You can get beer of this strength and win it at strength in this province legally. There is no good objection to jumping from one extreme to the other as they have done in the United States. In this province, they have grown accustomed to liquor and they can still get their nightclub in this province. It is a good thing they can. It is satisfactory for them."

## To Support Home Markets

Canadian Reconstruction Association is appealing to urban municipalities throughout Canada to support the home market by purchasing Canadian goods.

By means of a special letter from the president, which is being sent to clerks of cities, towns and villages.

## Torpedoes Failed To Explode Loud Enough Above Roar Of Train.

**Explanation of cause of Wreck Reaches Headquarters at Montreal Crew Rushed Back to Give Warning—Wife of James Tilley, Vancouver, Believed to Be Eighth Victim.**

Montreal, January 29th.—Fellows of torpedoes to explode loudly enough to be heard above the roar of the train was the cause of the rear-end collision at Corbett Sunday on the Canadian Pacific Railway in which eight or more people lost their lives, according to reports reaching the company's offices here this morning.

When the first section of the transcontinental train was stalled owing to the difficulty in raising steam through the extreme cold, it crew went back along the track and fired torpedoes to act as a warning to the second section. The members of the crew of the second train report that they did not hear the torpedoes, and their train ran on into collision with a Pullman car, which was telescoped.

C.P.R. officials announced that they have recovered the bodies and names of six dead, and are presuming the deaths of two more—the child Beale who is missing, and the other wife of James Tilley, of Vancouver, who may or may not have been on the train, but in the pocket of the dead man was found a pass for him and wife.

## Fosters Weather Forecast

Warm waves will reach Vancouver about January 28th. February 8th, and 9th, and temperatures will rise on the Pacific slopes. They will cross crest of Rockies by close of January 29th, February 4th and 10th; plains sections 30, February 26th, and 11, meridians 30, great lakes, middle Gulf States and Ohio-Tennessee valleys, January 31st, February 8th, and 12th; eastern sections February 1st, 7th and 13th, reaching vicinity of Newfoundland about February 2nd, 8th and 14th. Storm waves will follow about one day behind warm waves and cool waves about one day behind storm waves.

These disturbances will dominate the weather of North America from near January 27th. to near February 14th. The week centering January 27th as predicted, not only brought heavy storms in America but in Europe also. The week centering on January 18th was also predicted to bring severe weather events.

Most severe storms and must precipitation of February are expected during weeks centering on 8th and 14th. The period of about thirteen days described above is expected to bring a decrease of precipitation in the Cotton States, an increase in the Northern States and a continuance of moderate precipitation in Canada, and on the Pacific slope. While some extremes of weather events are expected, February will average about normal. Live stock will require about an average of feed and care. A cold, hard, stormy winter would be expensive to live stock feeders.

Weather conditions for February seem to favor winter grains but too backward for southern crops. I hope that all industries will bend to the ear "throughout 1920. Never was a time that seemed to promise more in America. The dark clouds have a silver lining and will pass away. Don't let the unrest disturb you. Above all other things, have a one to keep your head level. Our new American race, in the States and Canada, contain the best elements on earth. Everything we can produce is in great demand, and if you produce large quantities of good materials this year the high prices you have to pay will not hurt you. As I see it everything will come to those who work and wait.

Never was such a demand for knowledge of future weather, and those who are interested in weather matters should study weather science. Last week I left you watching a disturbance coming from westward. The storm wave was approaching you, the ferry white clouds were giving way to more condensed and darker clouds. If these darker clouds are fuzzy and not well edged off great storm is indicated. If the clouds are considerably darker with smooth edges and resting on straight edged formations then you will know that the storm, not yet in sight, has a considerable energy in it. These darker, well formed clouds will be moving around the storm centre. If the storm is taking a path south of you the clouds will have westward; if the storm is about to pass north of you the clouds will move eastward; if the storm is coming toward you the clouds will move southward. While the wind and clouds move around the storm centre they continually approach nearer the centre. Green clouds warn of danger.

Mr. Carruthers and Mr. Berlin from Grassy Lake were visitors to Bow Island last Thursday, returning the same day accompanied by Dr. MacMan to attend Mrs. Berlin who is ill.

## Three are injured when trains crash at Brooks

**Westbound Train runs into Centre of Eastbound as it is taking switch**

Brooks January 29th.

The week which occurred here at 5:15 Sunday afternoon was cleared at 10 o'clock this morning, and the main line of the C.P.R. is open again.

Conductor Long, of Medicine Hat, in charge of Train No. 3, and J. Genest of Montreal, cook on Train No. 2, the two most seriously injured in the wreck, were cared for by Dr. C. E. Anderson of Brooks, and taken later to Medicine Hat Hospital. The injured men are: Three are injured.

P. Long, conductor, left hip and leg injured and generally shaken up. J. Genest, of the dining car department, compound fracture of the right tibia and fibula, five-inch scalp wound, but not permanently disabled.

W. L. Fraser, engineer, scalp wounds. These are all employees of the company. No others were injured so far as is known.

How Accident Occurred.

Train No. 2, eastbound, was pulling into a siding to allow train No. 3 westbound to pass. No. 2 was about half-way in when the first section of No. 3 coming along at about 15 miles an hour in a blinding snow storm, crashed into her. Two passenger coaches and a dining car No. 2 were smashed. Engineer W. L. Fraser, on No. 3, and his fireman jumped when they saw the cars come up ahead of them in the snow, thus saving their lives. No. 2 was a train of empty coaches. The cook, Genest, and J. Gillespie, of Montreal, were in one of the smashed cars and were pinned down with wreckage.

## Taber Firemen Fight Blaze in 30 Below Weather

**Four Old Buildings Burned Total Loss Won't Exceed \$10,000**

The fire which broke out at ten o'clock Monday night in the tailoring establishment of J. H. Diddle did damage, variously estimated at from \$2,000 to \$10,000.

The office of J. H. Layton and the Wong Lee laundry to the east, and the old Palm Theatre to the west, were practically destroyed by their contents. The old theatre was a rum-shack affair and had not been in use for some time.

The whole block was threatened. Shell's hardware, and the Hourigan stores being in the line of the fire, but luckily there was no wind blowing and the fire brigade after two hours hard fighting was able to get the blaze under control. All danger to adjacent buildings was over by 2 a.m.

All the buildings destroyed were of frame construction, built many years ago so the loss was not large, the contents being of really more value than the buildings.

Frozen fire hose caused the firemen much trouble in the 30 below zero weather.

Don't forget the Card Party at the St. Michael's Hall on February 10th.

## The Drug Habit

Dear Sir:—The New York Police have opened war on the illicit drug vendors and gathered in hundreds of drug addicts to bring evidence from them. The prevalence of the drug habit in the city is said to be appalling. A similar story comes from London and other European centres of population. The Globe of April 19th, 1919, says:—

Despite free access of both sexes to the bars in the Motherland, women have recently reported to the use of unwholesome spirits. Many cases have arisen where women have gone to oil and paint shops with the idea that the spirit was intended for mixing paint. Seven times stronger than ordinary whiskey, and containing a number of ingredients considered sufficient to stop any desire to drink it. The Liverpool Licensing Justices assert that its use as a beverage is increasing. Its effect has been shown as terrible, a frantic state while under its influence gradually giving place to insanity.

A favorite argument of the liquor dealers has been that if alcoholic liquors were prohibited people would take to drugs; but it has been shown over and over again that where the most alcohol was consumed there has been found the greatest number of drug fiends. The number who have begun by taking morphine and other drugs as medicine are very few. As a general rule a man becomes an alcohol fiend first and after a time finds that he must have something stronger to satisfy his craving.

The French began on wine first that they went to brandy, and then to alcohol, which was called the spirit of wine, failed to give relief, and alcohol was invented. On account of its terrible effect it has been called "cock-cold drops." When a person begins his course, nothing but a miracle will save him. We must kill alcohol before we can conquer the drug habit.

E. Arnold, M.D. Department of Social Service.

## Sensational Escape from Lethbridge Jail

Man serving two year sentence Gets Away, But Is Caught Again

A sensational escape was made from the Provincial Jail here on Friday 20th, when Jesse Lackner, who was undergoing a two year sentence for theft made his getaway. The prisoner made a daring bid for freedom, getting out of his cell, some 30ft. above the ground, and hanging on by the tips of his fingers to the window ledge. He then went along for about 30ft. until he dropped on to a heap of snow so as to break his fall. In doing this he sustained a fractured leg.

The prisoner was located in a back room in a down town residence on Saturday evening, having in addition to the fractured leg, a frozen hand. He was hidden under a pile of bedclothes when discovered by the chief of police and Detective Wallis.

Winnipeg Jan. 27.

Last Friday Chief Justice

that the Workmen's

it was appointed and paid by  
the Provincial instead of the  
Federal Government.If that is the case, then all  
monies paid to the Workmen's

**Taking a Ticket for  
Death**When passengers buy a  
ticket from the C.P.R. they are  
placing their lives in the hands  
of that Company.Therefore that company  
should be compelled by law to  
better safeguard the lives of  
their passengers than they do  
at present.They should never be allowed  
to run trains so closely behind  
each other as they did, once too  
many, with it appears no safe-  
guards whatever that were of  
real use; with the consequence  
that last Sunday a terrible  
collision occurred at Corbeil  
about ten miles east of North  
Bay and eight innocent people  
were killed.On the same day Sunday,  
another wreck occurred at  
Brooks, fortunately no one was  
killed although several were  
severely injured.The same thing happened at  
Brooks as at Corbeil, the trains  
were timed too closely together  
so that the No. 2 Eastbound  
could not get into a siding in  
time so as to leave the main  
line clear for No. 3 Westbound  
to pass.**Names of victims in  
collision at Corbeil**Reports to the Canadian Pacific  
Railway Company offices here this  
afternoon described the removal of  
the wrecked Pullman car and the  
finding underneath it of two bodies  
that of a young man and a woman.  
The man's body is believed to be that  
of Beale, son of C. S. Beale, of Van-  
couver, and the woman's that of  
Mrs. James Tilley, Vancouver. Mr.  
Tilley was also killed in the wreck.A particularly pathetic feature of  
the fatalities was the killing of Mrs.  
Penden and her two children, who  
were bound for Vancouver.George Rasmussen and his wife  
who were on their wedding trip from  
Denmark to Seattle, were both in-  
jured.  
Mr. and Mrs. W. Klemme and Mrs.  
Katherine Klemme, Sr. all of Calgary  
who occupied a drawing room in one  
of the smashed standard sleepers, all  
suffered injuries, all three are in the  
hospital. Officials at noon stated that  
it was expected all the patients in the  
hospital would recover.**Three Men and Baby

prey of flames.Winnipeg, January 28th.—(By Cana-  
dian Press)—Three men and a five  
months old child perished in the flames  
that burned to the ground the old  
historic hermitage, Headingley, ten  
miles west of Winnipeg, at one o'clock  
this morning. Tightly clamping her  
year-and-a-half old daughter in her  
arms, Mrs. W. C. Hall, wife of W. C.  
Hall, former reeve of Charleswood  
and one of the fire victims, plunged  
to safety out of the flaming kitchen &  
into the bitter 30 below zero weather.  
She wore only her night clothes.Following are the victims of the fire:  
Ex-Reeve W. C. Hall, of Charleswood,  
aged 57, owner of the destroyed house  
and a pioneer in the district.William, his son, five months old
